CEIT 440   USER CENTERED DESIGN

TERM PROJECT
STEP 2
USABILITY TEST PLAN

You will be preparing your plan according to the format given below and uploading[1] it as a **PDF file**, naming the file as [step 2_ test plan]

Scope:

Explain what you are testing; Give the name/address of the web site or application. Describe which aspects of the web site or application the test will cover.

Purpose:

Identify the concerns, questions, and goals for this test with reference to the definition of usability in ISO 9241-11:

"The extent to which a product can be used by specified users to achieve specified goals with effectiveness, efficiency and satisfaction in a specified context of use"

Test Scenario:

The test scenario has to answer the following key questions:

- ✓ ***Who is the user?*** *Define your user profile*
- ✓ ***What are your users' interests?*** *List the results of their empathy map from Step 1*
- ✓ ***What goals does this user have****? Explain what you will be asking from the user in using this web site or app and why, Indicate the number and types of tasks included in your test*

Participants:

Indicate the number of participants to be tested

Schedule & Location:

Indicate when and where you will do the test.

The Test:

Describe the test, the moderation technique (CTA, RTA, CP, RP- explained in Lecture Notes) and the estimated length of your test

Metrics:

Based on your tasks:

- A. *Indicate which metrics you will be measuring in your test (e.g., effectiveness, efficiency, satisfaction)*
- B. *Indicate which of the following questions you are going to ask your participants*
  - • *prior to the sessions (e.g., background questionnaire),*
  - • *after each task scenario is completed (ease and satisfaction questions about the task),*
  - • *and overall ease, satisfaction and likelihood to use/recommend questions when the sessions is completed.*

Equipment:

Indicate the type of equipment you will be using in the test & recording

---

[1] as of group works, one upload from each group is sufficient
