TERM PROJECT
STEP 1
USER RESEARCH

Instructions

- Each member will decide on a user profile and select 5 users of this profile
- You will be studying with the same users throughout all steps of the term project

- For this 1st step, you will arrange an interview with each user, asking them about their attitudes and thoughts on your test scope[1]

- You will be preparing an empathy map by classifying and writing the answers to the SAYS & THINKS sections

- You will be uploading[2] :
    - Detailed **description** of **each user profile** and
    - **all** empathy maps
  in a single PDF file, naming the file as [step 1_ empathy maps]

---

[1] interest in nature, natural activities, spending time in nature, climate change, natural disasters, etc.
[2] as of group works, one upload from each group is sufficient
